

## MACHSafe

Mount Pleasant Operations has adopted MACHSafe principal as the fundamental safety rules for all persons working at the project site. Activities to ensure compliance with the MACHSafe are incorporated into relevant operational control procedures.

These include:

- 
- ✓ No. 1 Always isolate energies before commencing work

---

  - ✓ No. 2 Always use correct fall preventions devices when working at heights above 1.8m

---

  - ✓ No. 3 Always comply with exclusion zones

---

  - ✓ No. 4 Always comply with site driving and traffic rules; and drive to conditions

---

  - ✓ No. 5 Always arrive at work fit for work

---

  - ✓ No. 6 Always use positive communication when approaching heavy equipment

---

  - ⊘ No. 7 Never work beneath a suspended load

---

  - ⊘ No. 8 Never enter a confined space unless authorised

---

  - ⊘ No. 9 Never enter an un-shored trench deeper than 1.5m

---

  - ⊘ No. 10 Never remove or disable critical safety equipment
- 

A breach of any MACHSafe rule will be dealt with in accordance with the Company's disciplinary policy.
